

6th edition

Critical Care Clinical Trialists Workshop

JUNE 13-15, 2024
WASHINGTON DC

Following 5 successful editions, Professor Alexandre Mebazaa (Paris, France) has the pleasure of inviting you to participate in the 6th annual Critical Care Clinical Trialists Workshop, which will take place in on June 13-15, 2024 in the Embassy of France in Washington DC.

WHAT IS THE 3CT?

- A high-level think-tank bringing together an exceptional expert faculty from North America, Europe and Asia-Pacific.
- An exceptional scientific program with short presentations followed by a stimulating multi-stakeholder panel discussion.
- A forum to foster an international exchange of ideas and to brainstorm on trial design, conduct, ethics, interpretation, approvability and implementation encompassing drugs, devices, biomarkers and therapeutic strategies for critical care.
- A unique opportunity to present and discuss the latest trials in critical care.
- Participants from across academia, industry, regulatory, NIH, patient advocacy, scientific press etc...
- Possibility to participate in-person or on a state-of-the-art virtual platform, offering you the chance to watch the sessions live or on-demand following the meeting and connect with participants.

LEARNING OBJECTIVES

- To produce relevant data from controlled critical care clinical trials that will contribute to better clinical care.
- To understand the problems associated with making decisions about what constitutes relevant information to improve critical care clinical trials and how to satisfy regulatory authorities and payers.

SCIENTIFIC PROGRAM

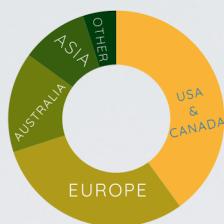

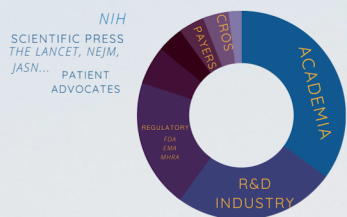

- Entire day dedicated to Cardiogenic Shock
- Transition from ICU to home
- Acute Heart Failure
- How can AI help improve outcomes in the critically ill?
- Management in massive bleeding
- Sepsis: Biomarker-guided therapy
- Lessons from international ARDS guidelines
